

Steering Committee 15-16 January 2019 - Hanoi

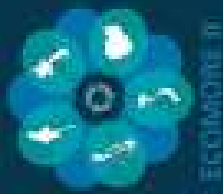

# Coordination: Communication and Visibility

ECOMORE II

WP COORDINATION

Register | Login

# Economic development, Ecosystem Modifications, and emerging Infectious diseases Risk Evaluation

MANAGABLE  
LEVEL OF RISK  
OBJECTIVE  
COUNTRY-SPECIFIC RISK EVALUATION  
MANAGEMENT OF THE PROJECT  
ENVIRONMENTAL COMPONENT  
EMERGING PATHOGENS

# Sharing information with partners and stakeholders

The objective was to put a communication plan in place and to measure its effectiveness periodically throughout the project.

- Website [www.ecomore.org](http://www.ecomore.org)
- Utilization of Mail Chimp
- Before June 2018, 50 to 100 views/ topic
- After June 2018, 400 to 1200 views /topic

In general reports on Leptospirosis activities are much more viewed than those on dengue/vector control

- Communication tools: notebooks, agenda planner, posters

13 DAYS AGO  1197  0  0

LEPTOSPIROSIS – MONITORING IN THAI BINH PROVINCE

# Participation in Regional Meetings: Knowledge Transfer and Visibility

## ECOMORE presentations in 2018:

- Singapore (S.Marcombe & S. Boyer): WIN (Worldwide Insecticide Resistance Network) International Conference / October 2018, 01-03<sup>rd</sup>
- Martinique (S.Marcombe) : MOSQUITO CONTROL SYMPOSIUM / Fort-de-France, December 2018, 5 – 7<sup>th</sup> 2018
- Hanoi, Dr Le Thi Phuong Mai (NIHE): SEA OHUN 2018 International Conference / November 2018, 12-15<sup>th</sup>
- Hanoi, Vincent Herbreteau: VSF 2019 (Vietnam Sustainable Forum) “Fostering Economic Growth and Inclusive Society for Sustainable Development” / January 2019 17-19<sup>th</sup>

## Next Conferences, Meetings and Symposiums on dengue, leptospirosis in the region from 2019 to 2021.

Visibility of ECOMORE<sub>1</sub> in regional events was limited

- When the operational phase of the project was completed, people responsible of the studies have moved to other projects and are not more available or were not those who analyzed data
- Budget for participation in such events was not forecasted
- 4 National Final Symposiums with no external participation

*The deadline for the use of funds refers to the day on which a period of 6 months beginning on the date of payment of the last advance has expired*

*Last instalment deadline refers to June 30, 2021*

**Consequently these events must be planned from now.**

**ASVEMC**

Asian Society of Vector Ecology and Mosquito Control

**2019**

IFSCMMD 2019

**The 6th International Forum for Surveillance and Control of Mosquitoes and Vector-borne Diseases**

In conjunction with the National Conference of Medical and Veterinary Entomology of the Entomological Society of China and the 4th Meeting of the Asian Society of Vector Ecology and Mosquito Control

**Xiamen, Fujian, China  
May 27-31, 2019**

- Fee 300 USD until 31 March 2019 /340 USD
- <http://www.asiansvemc.org/2018/11/13/ifscmmd-2019/>

• **Proposed topics**

- The future in the field of Medical and Veterinary Entomology
- Overview of current surveillance and control status/situation for mosquitoes and vector-borne diseases.
- Overview of future direction and challenge for the surveillance and control of mosquito and vector-borne diseases.
- Search for possible collaboration for research and development of surveillance and control of mosquito and vector-borne diseases.
- Promote new techniques/methods for surveillance and control of mosquito and vector-borne diseases.

**13 - 14 Jul 2019** Pre-Summit Workshops  
**15 - 16 Jul 2019** Summit

**2019**

**Proposed topics**

- Vector control methods
- Vaccine development updates
- Update of new vaccine technology
- Alternative/Complementary vaccination approaches
- Diagnostic
- Surveillance
- Communication and Advocacy
- Socio-economic impacts

**Partners**

ADVA – Asian Dengue  
Vaccination Advocacy

Fondation Merieux

GDAC - Global Dengue & Aedes-  
Transmitted Diseases  
Consortium

SEAMEO - Southeast Asian  
Ministers of Education  
Organization

IMERI  
INDONESIAN MEDICAL RESEARCH INSTITUTE

UNIVERSITAS  
INDONESIA  
*Veritas, Probatum, Veritas | 22 May*

[www.asiadenguesummit.org](http://www.asiadenguesummit.org)

11<sup>th</sup> scientific conference of the  
International Leptospirosis Society (ILS)

**Vancouver, British Columbia, Canada**

**8-12 July, 2019.**

The conference occurs every 2 years

*Cyrille Goarant (IPNC) will participate*

<https://www.fourwav.es/view/836/submission/>

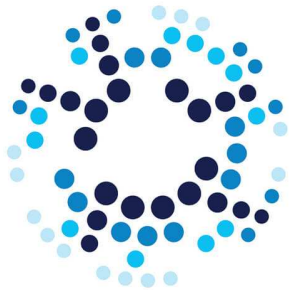

# 2019

The International Leptospirosis Society Inc. (ILS) was formed in 1994 to promote knowledge on leptospirosis through the **organization of regional and global leptospirosis meetings.**

### Objectives of the Society:

- To create awareness about leptospirosis
- To organize an international scientific meeting
- To facilitate communication among people with an interest in leptospirosis;
- To provide up-to-date epidemiological information on leptospirosis
- To assist the diagnosis of leptospirosis, research, or the control or treatment of leptospirosis

# INTERNATIONAL SOCIETY FOR INFECTIOUS DISEASES

**2020**

## **International Congress on Infectious Diseases 2020 (ICID)**

Organized by the **International Society for  
Infectious Diseases (ISID)**

in collaboration with the **Malaysian Society for  
Infectious Diseases and Chemotherapy  
(MSIDC)**.

**Kuala Lumpur, Malaysia**

**20-23 February 2020**

<https://icid.isid.org/>

**ISID:** The Society has over 90,000 members from over 155 countries around the world.

Program of regional and international expertise, focusing on the burden of infection in low- and middle-income countries with a global perspective.

**SPARKING AND SHARING NEW KNOWLEDGE TO  
PREVENT, MANAGE, AND TREAT INFECTIOUS  
DISEASES**

This event will encompass all of the fields of infectious diseases with particular attention being paid to the major challenges of the region including, of course, **Zika, dengue and other related viral infections**, AIDS, tuberculosis, pneumonia, and enteric and parasitic infections.

**2020**

### **Viral infections targeted**

HIV/AIDS

Influenza

**Dengue**

**Zika**

**Chikungunya**

Hepatitis

Rota virus

Rabies

Ebola

Herpes simplex virus infection

Hand foot and mouth disease

Yellow fever

Emerging and re-emerging viral infections

### **The 20<sup>th</sup> International Congress for Tropical Medicine and Malaria**

**20-24 September 2020**

**Bangkok**

Promoted by

The Congress gathers 1500 to 2000 scientists  
and occurs **every 4 years**

[www.ictmm2020.org](http://www.ictmm2020.org)

Registration fee (early bird) 790 USD,  
submission of abstract or poster not yet open

**JULY 2020**

## **5th ASIA DENGUE SUMMIT**

- 1<sup>st</sup> Asia Dengue Summit 2016 in Bangkok
- 2<sup>nd</sup> Asia Dengue Summit 2017 in Manila
- 3<sup>rd</sup> Asia Dengue Summit 2018 in Kuala Lumpur
- 4<sup>th</sup> Asia Dengue Summit 2019 in Jakarta
- 5<sup>th</sup> Asia Dengue Summit 2020 in ??

[www.asiadenguesummit.org](http://www.asiadenguesummit.org)

**2020**

The summit provides a unique opportunity for everyone in the dengue community (clinicians, researchers, government public health leaders and policymakers) to come together to exchange ideas, updates and achievements on dengue management strategies for the region.

### **Topics:**

- 1. Dengue Disease Burden and Surveillance**
- 2. Diagnostics and Dengue Management**
- 3. Laboratory Diagnosis of Dengue**
- 4. Critical Care Management of Dengue in Adults**
- 5. Dengue Vector Control Strategies**
- 6. Dengue Vaccines and their Futures**

# FINAL SYMPOSIUM ECOMORE 2020-2021

## Options:

- Organization of one final symposium in a partner country gathering dengue and leptospirosis components and bringing together key scientists involved in the studies and regional external experts
- Organization of two final symposium, one on dengue, to be held in a country where dengue control study was implemented and one on leptospirosis in a country where leptospirosis study was implemented
- Participation in major events organized in the region on dengue with several ECOMORE presentations (vector control in 3 countries, saliva test, epidemiology study, outbreak simulator, climate impact...)
- Organization of the International Leptospirosis Symposium (ILS) in Hanoi in collaboration with IPNC and IP-Spirochetes Biology Unit (who will organize?)
- Any other suggestion??

## Message of Ben Adler – President of ILS:

- We are already looking to the 2021 conference. Accordingly, proposals to host ILS 2021 are now invited. Any interested persons should email me directly to obtain a *pro forma* proposal form and the ILS Conference Guidelines. The deadline for submission is April 30th, 2019. This will allow some time to assess proposals such that an announcement can be made in Vancouver.
- Cyrille Goarant has already contacted Dr Ben Adler to evaluate if NIHE/Hanoi can be candidate and the reply is *“Of course it would be feasible to hold ILS 2021 in Vietnam (I assume Hanoi?). It will depend on what other proposals we receive. The key point is to make the meeting affordable for scientists from poorer countries. In that regard, Vietnam, like the rest of South East Asia (apart from Singapore) has an advantage. In the past, some bids have been rejected because they wanted to hold the conference in fancy hotels, etc. On the negative side, I don't think Vietnam has had people at previous ILS conferences”*.
- We received already the pro-forma proposal form and the example of New Zealand in 2017

## So?
