

Lao Package: An integrated data system

National Stakeholder Meeting
29 November 2019, Vientiane, Lao PDR

Marc Choisy
IRD Hanoi, Vietnam

urban
epidemiological
simulator

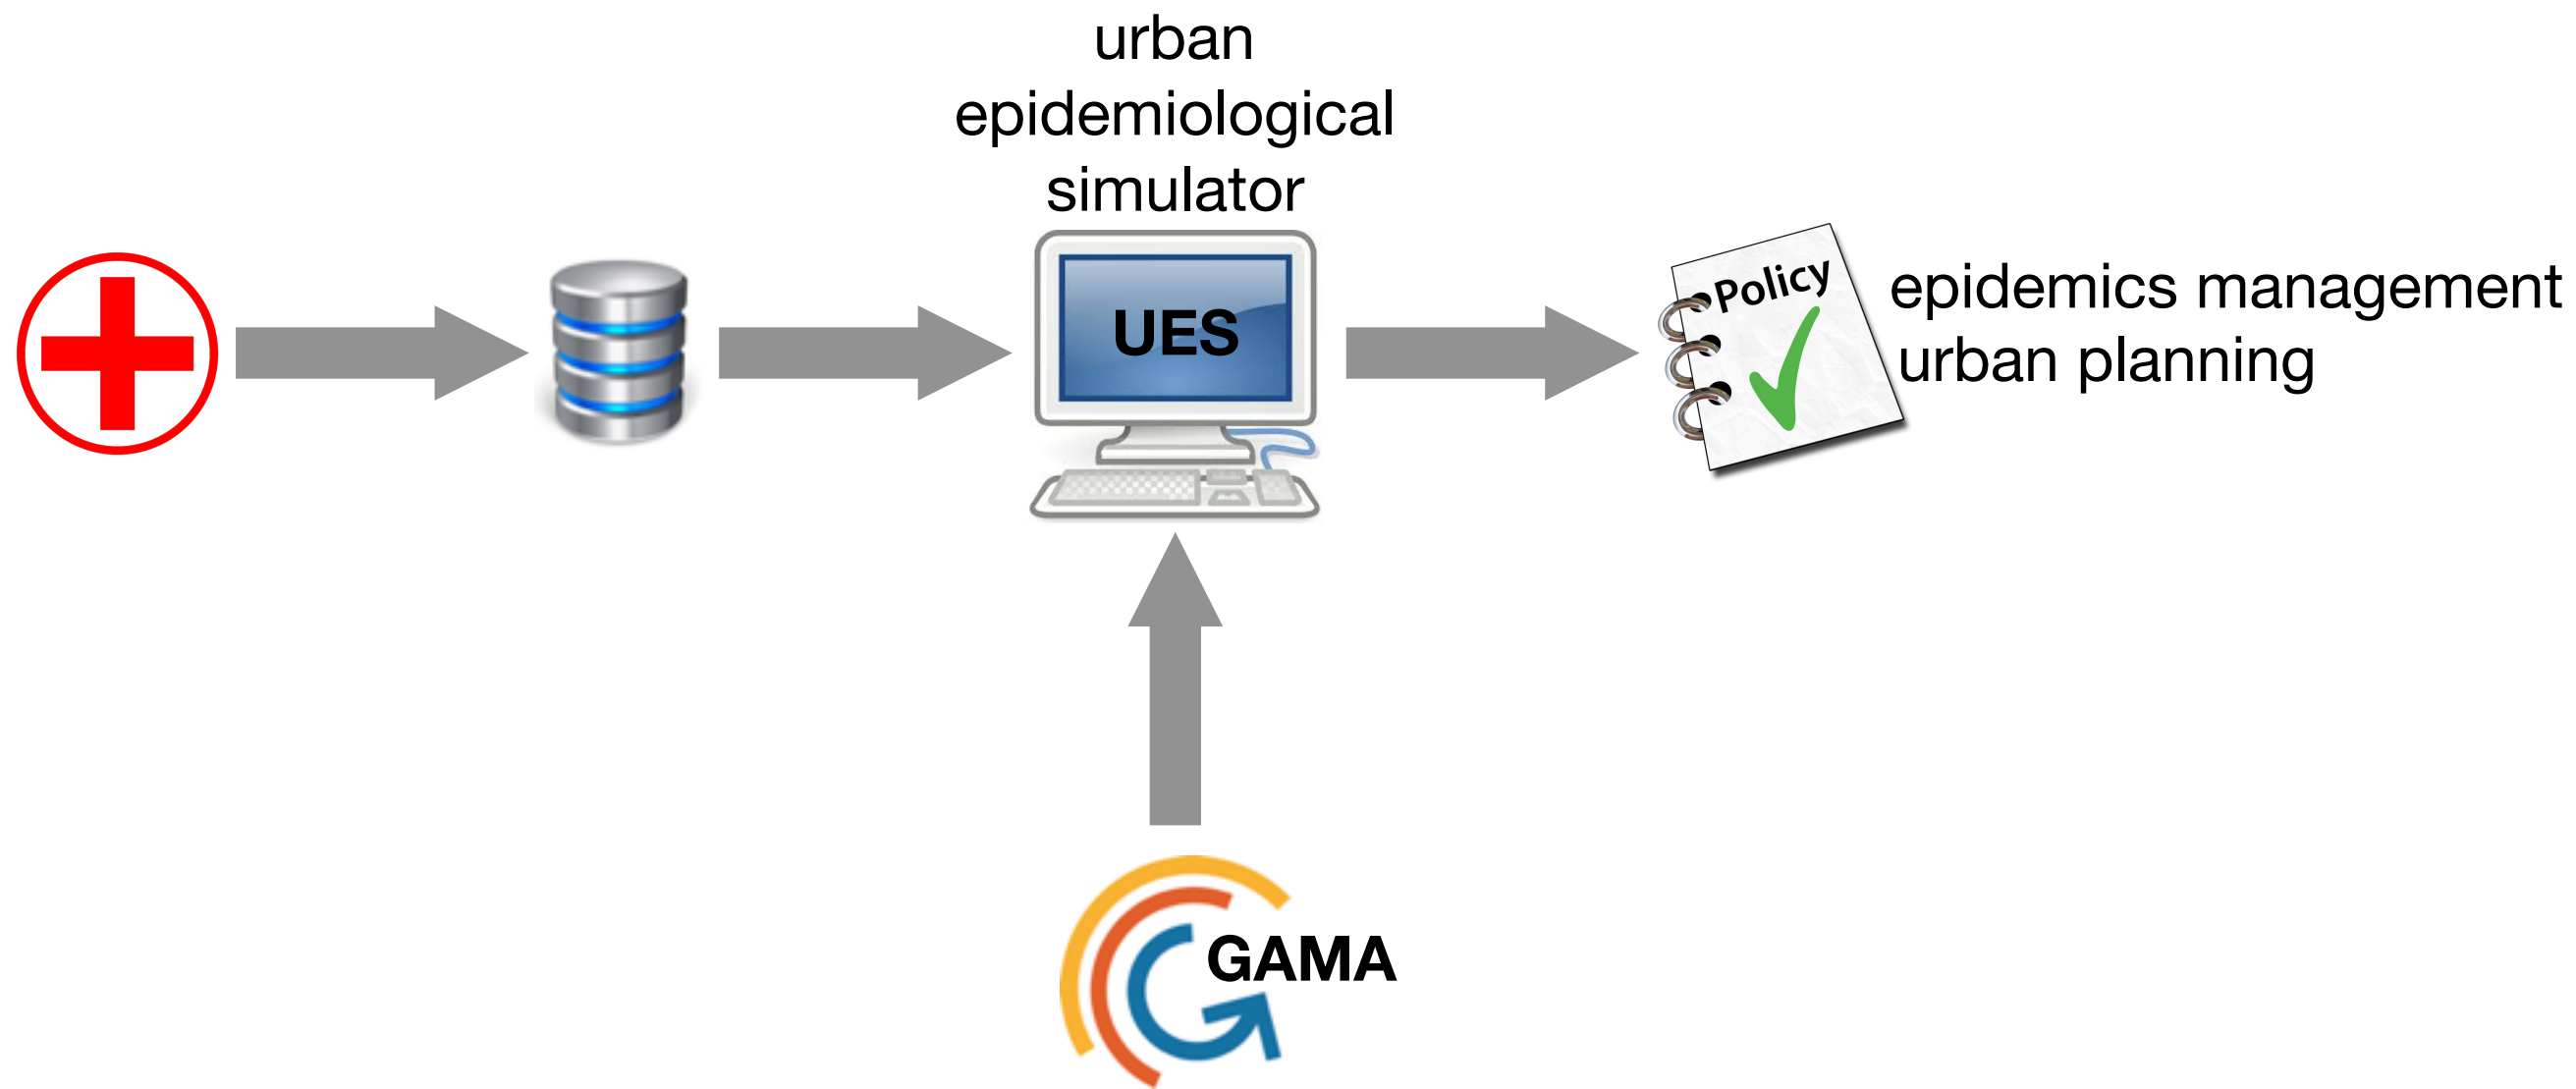

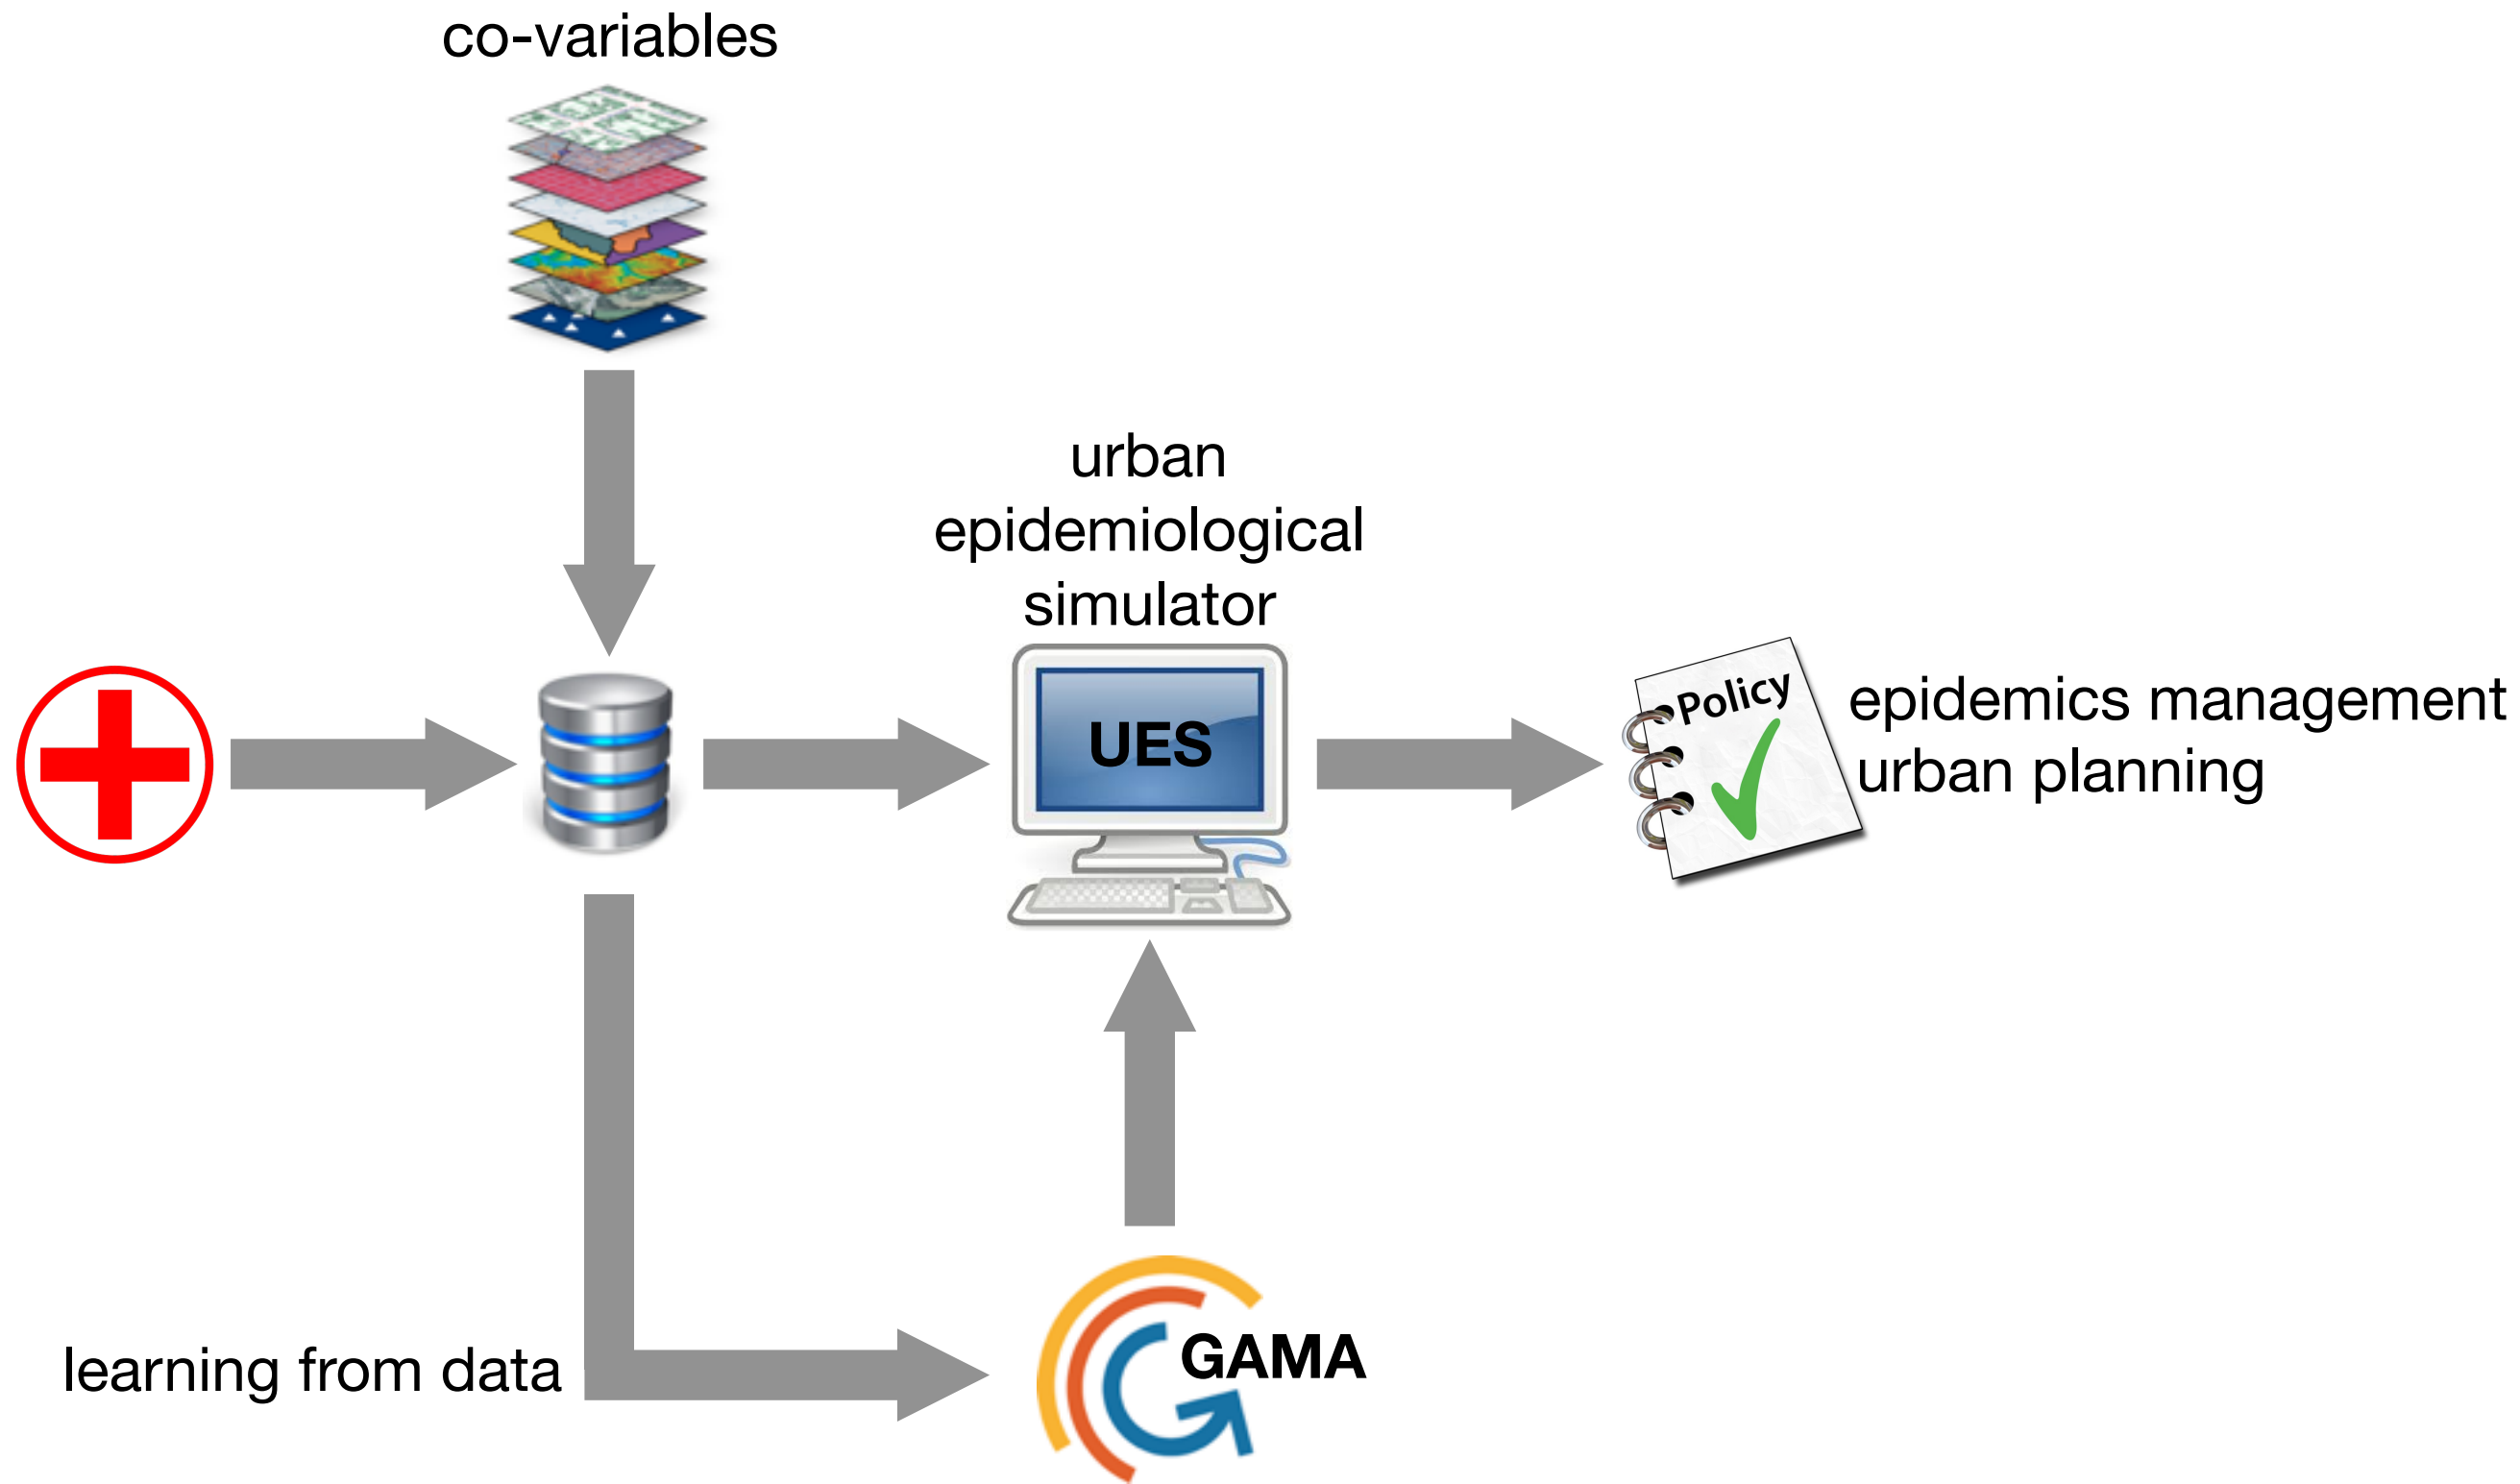

urban
epidemiological
simulator

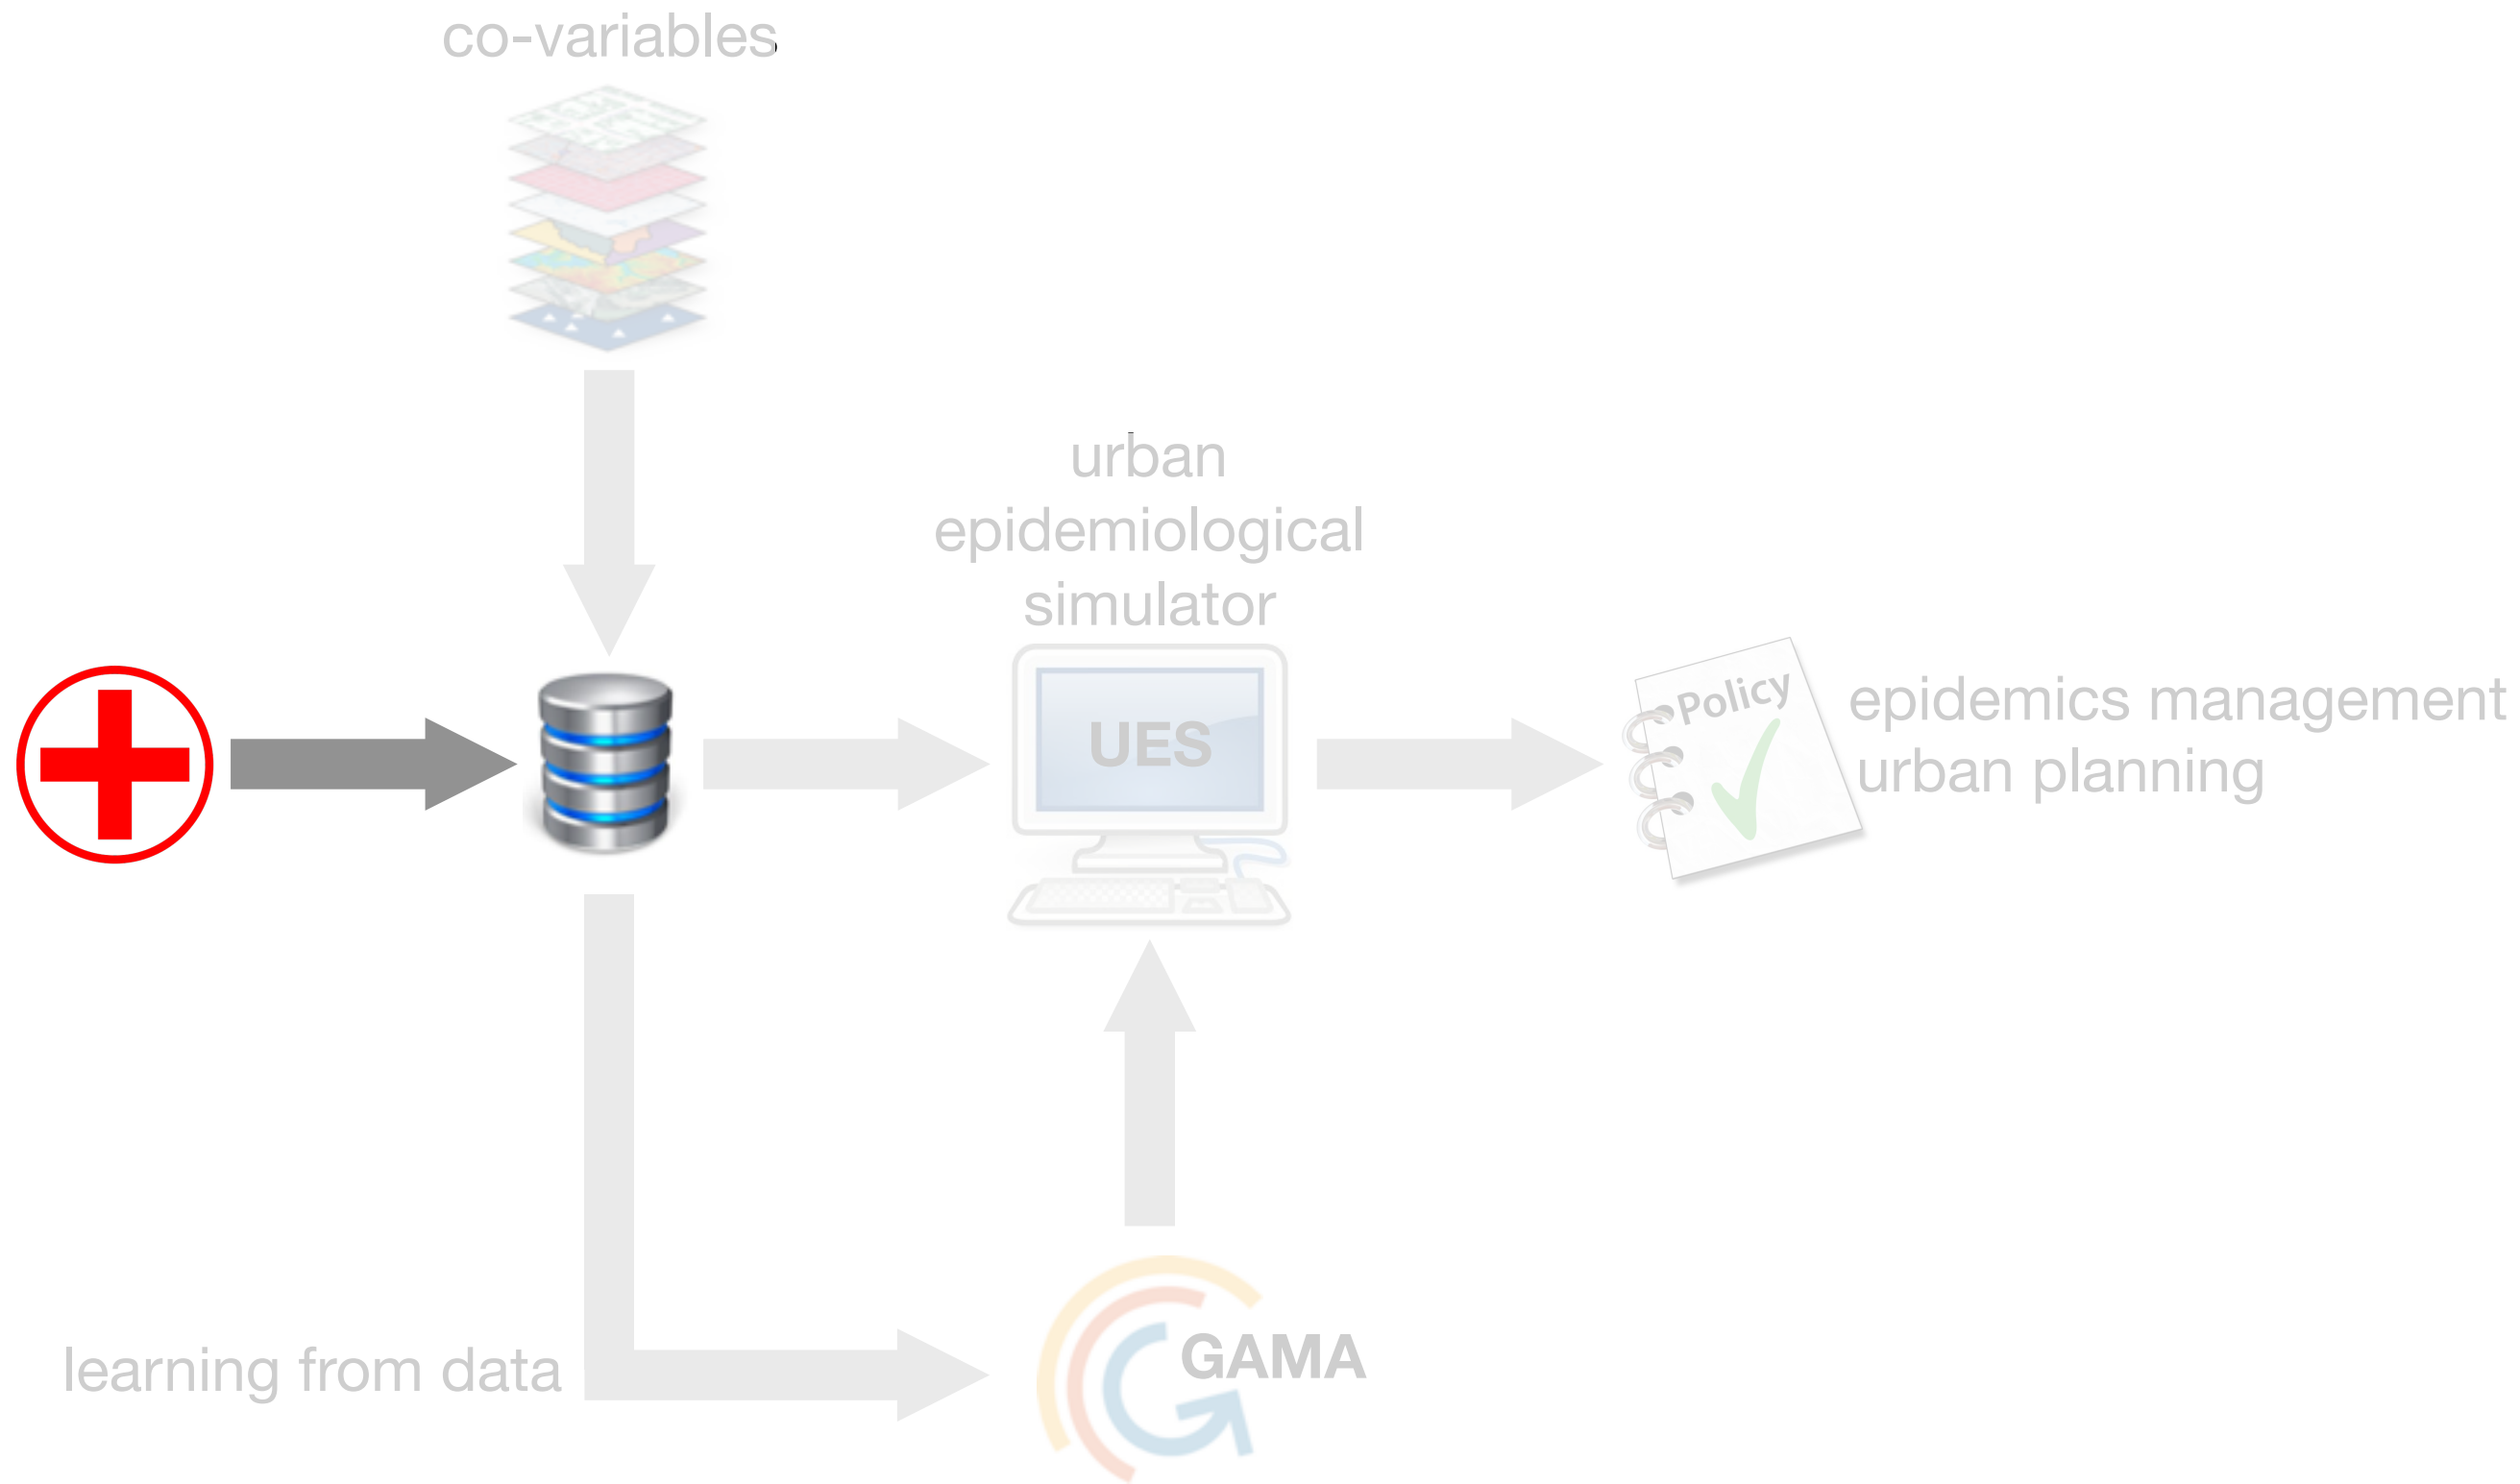

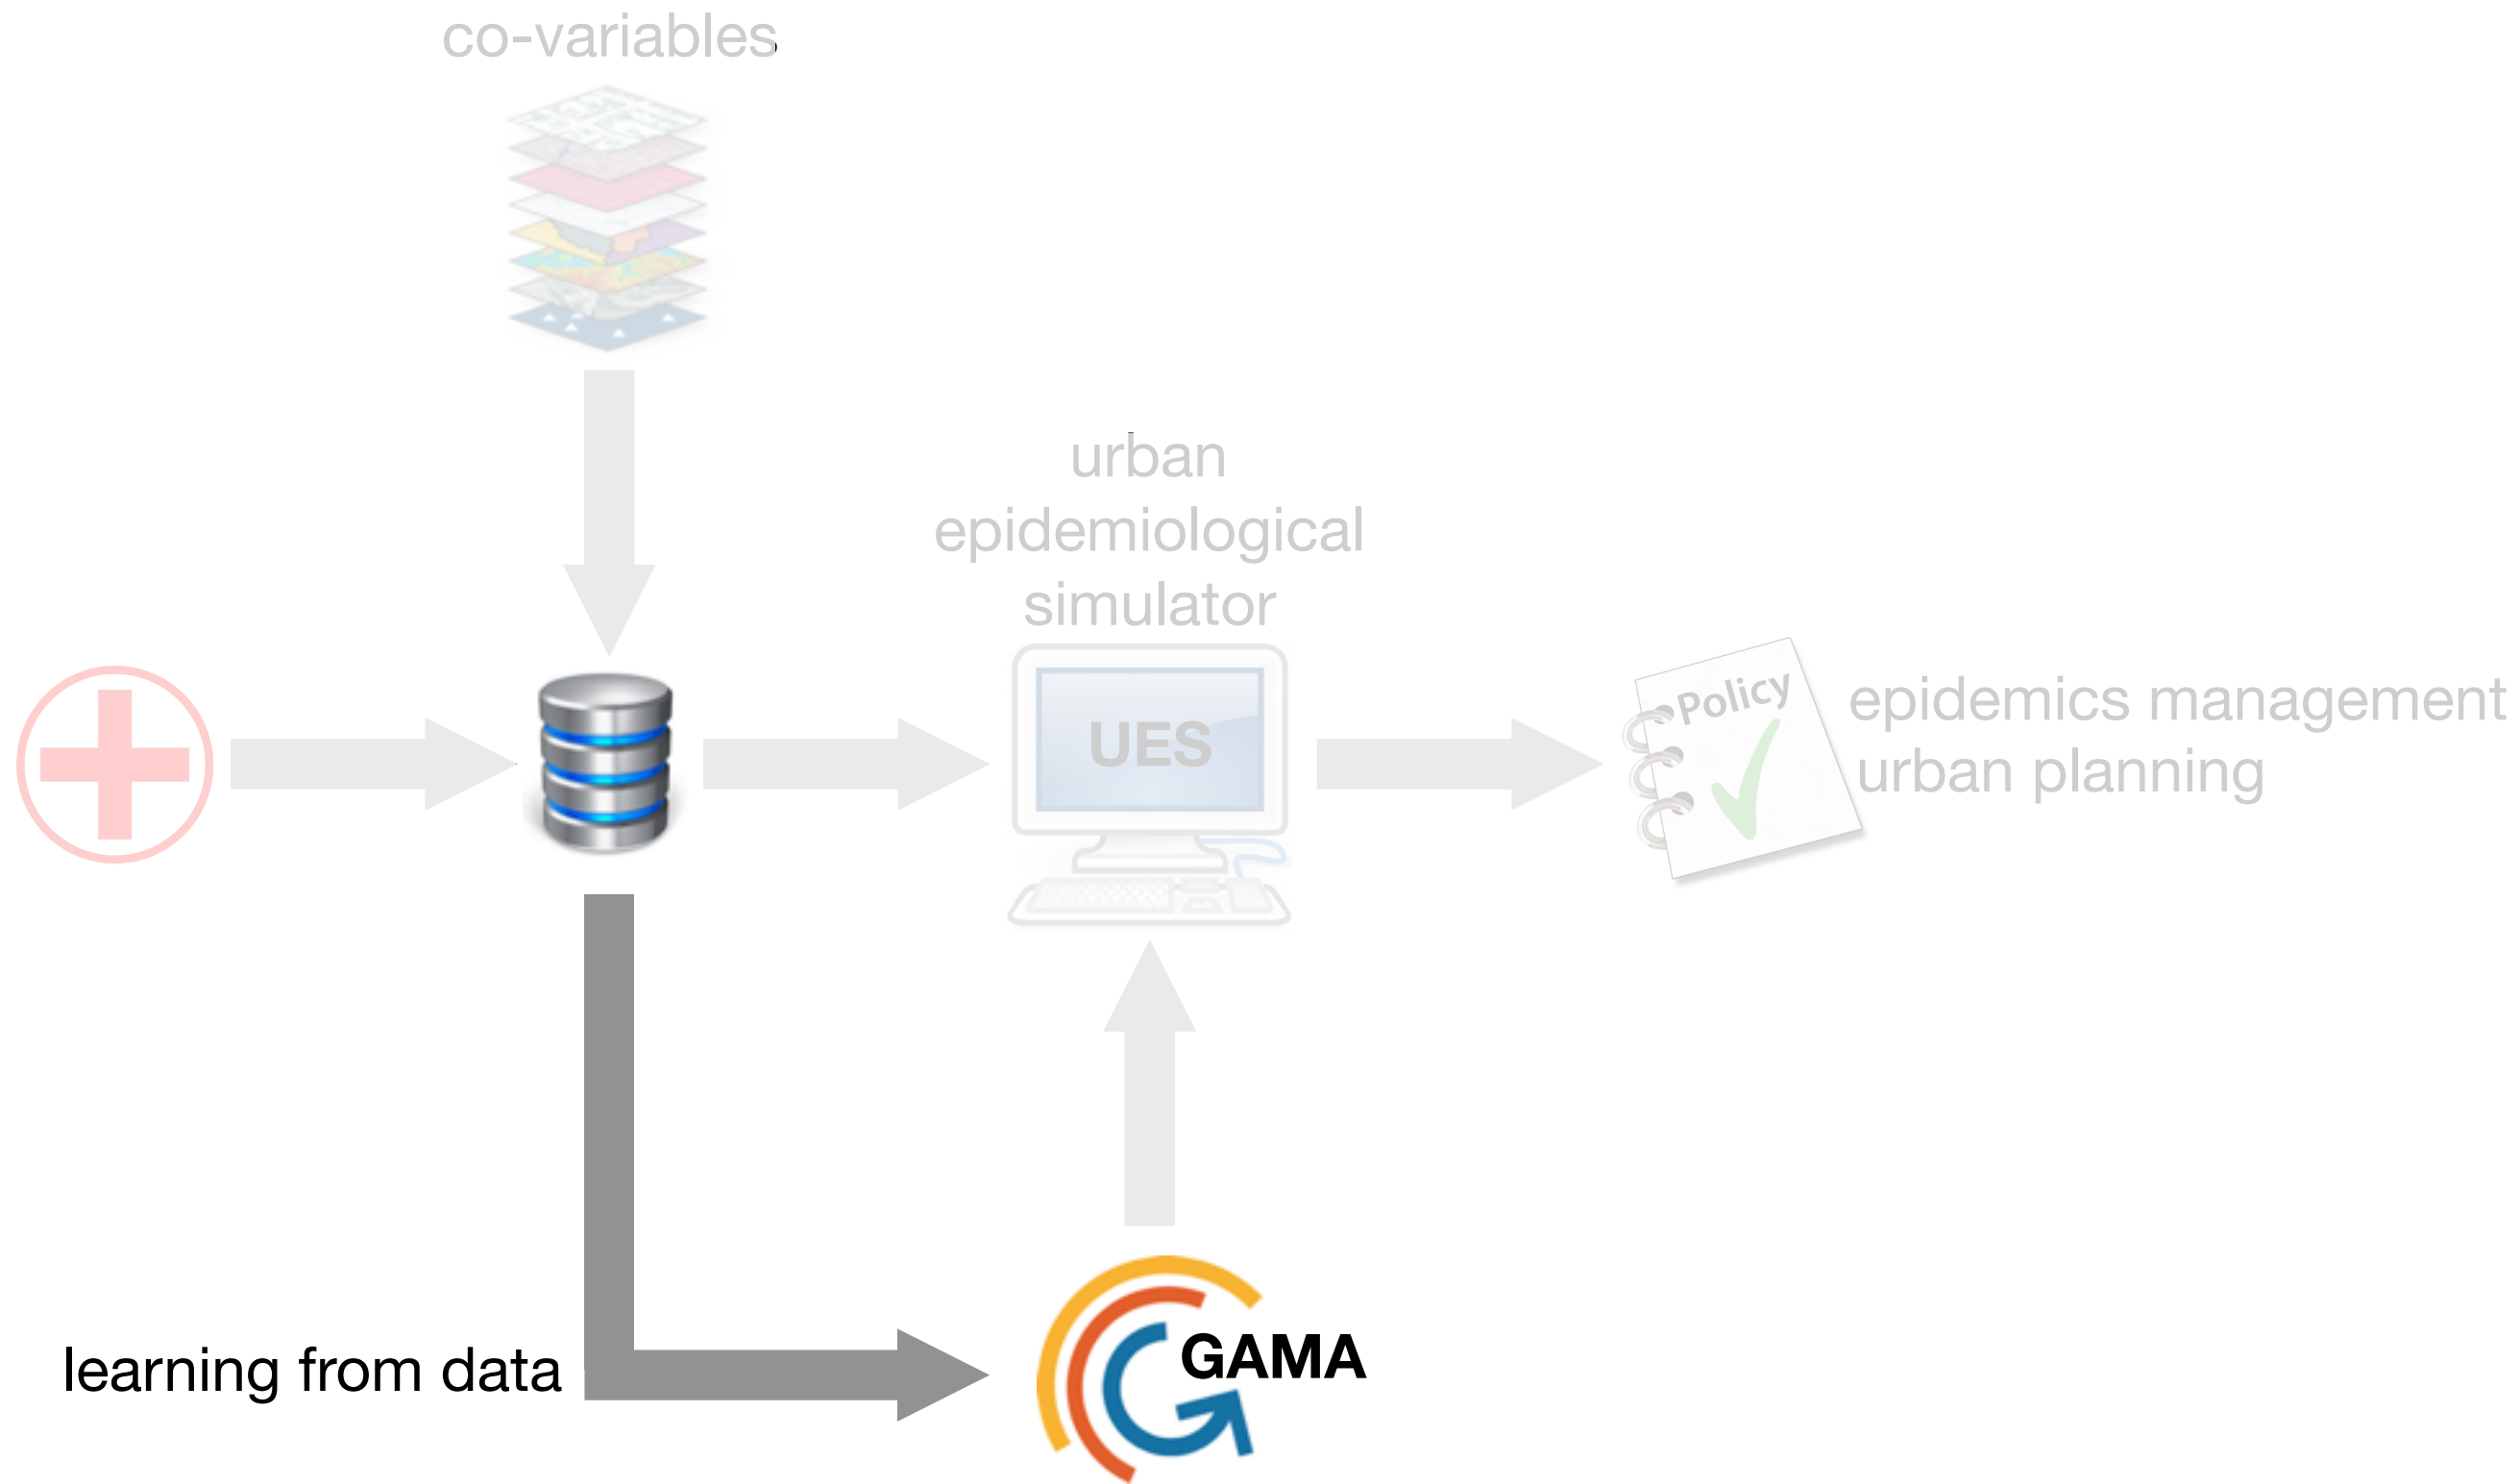

epidemics management
urban planning

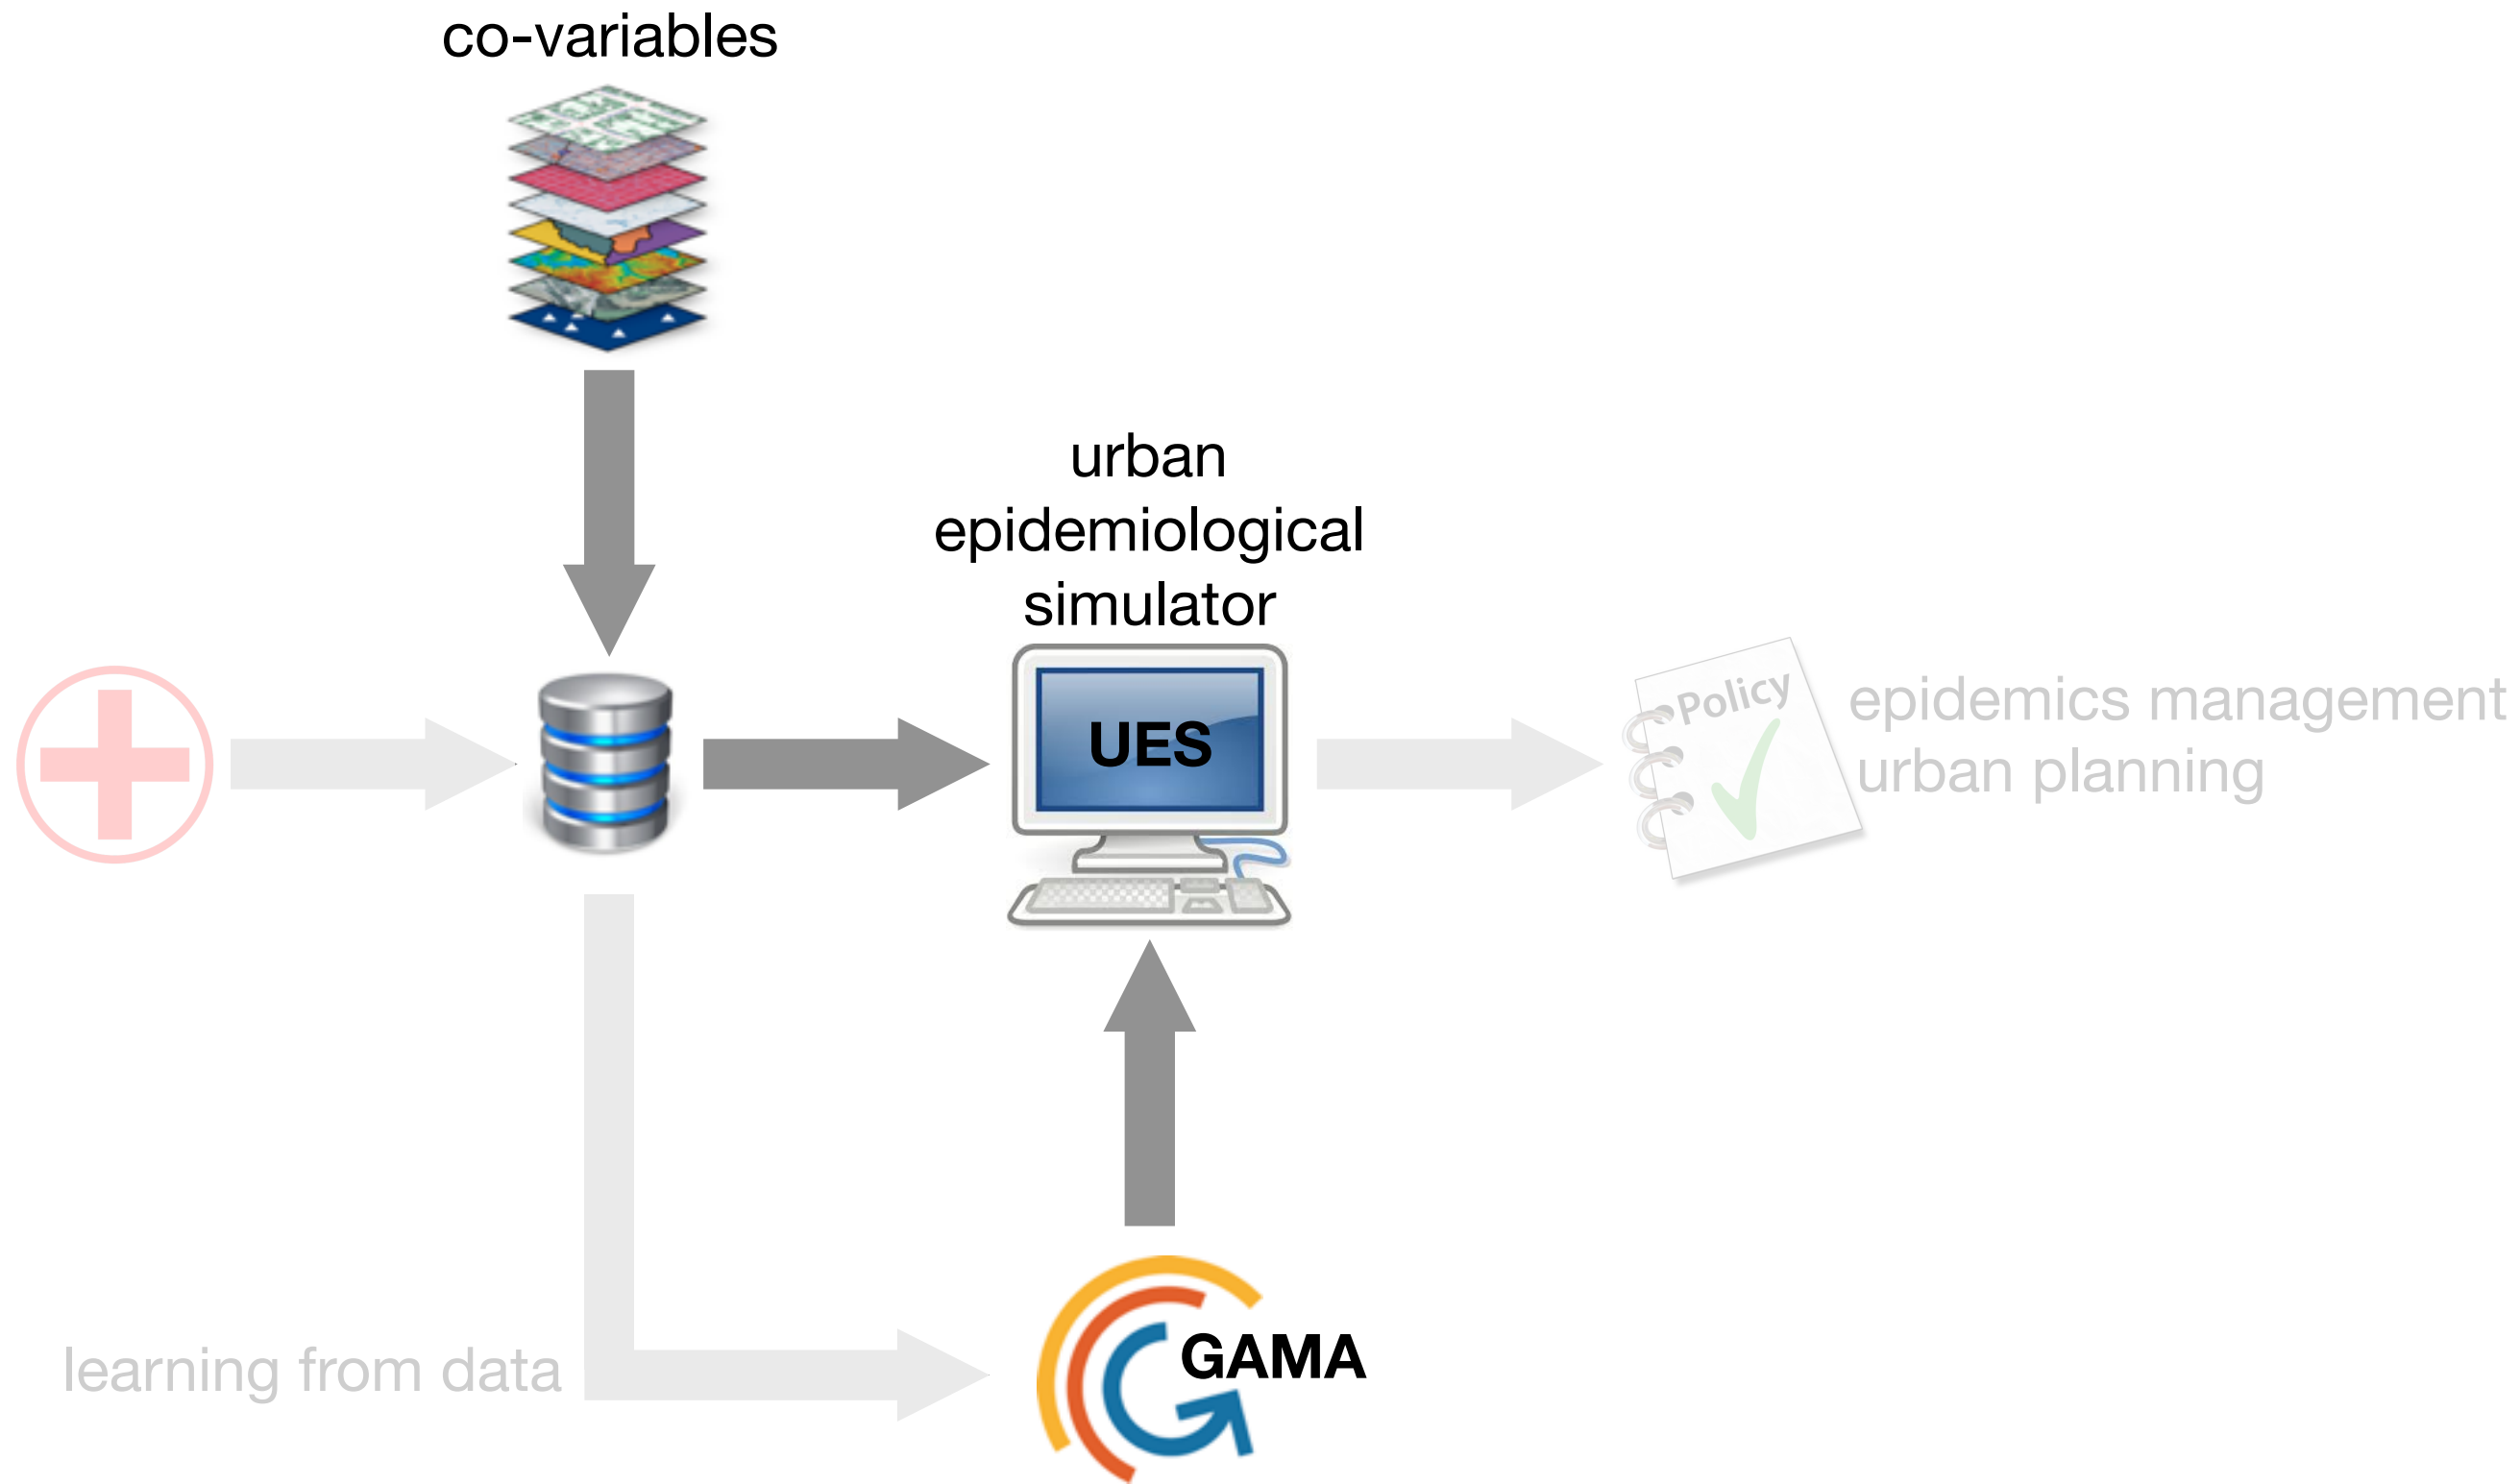

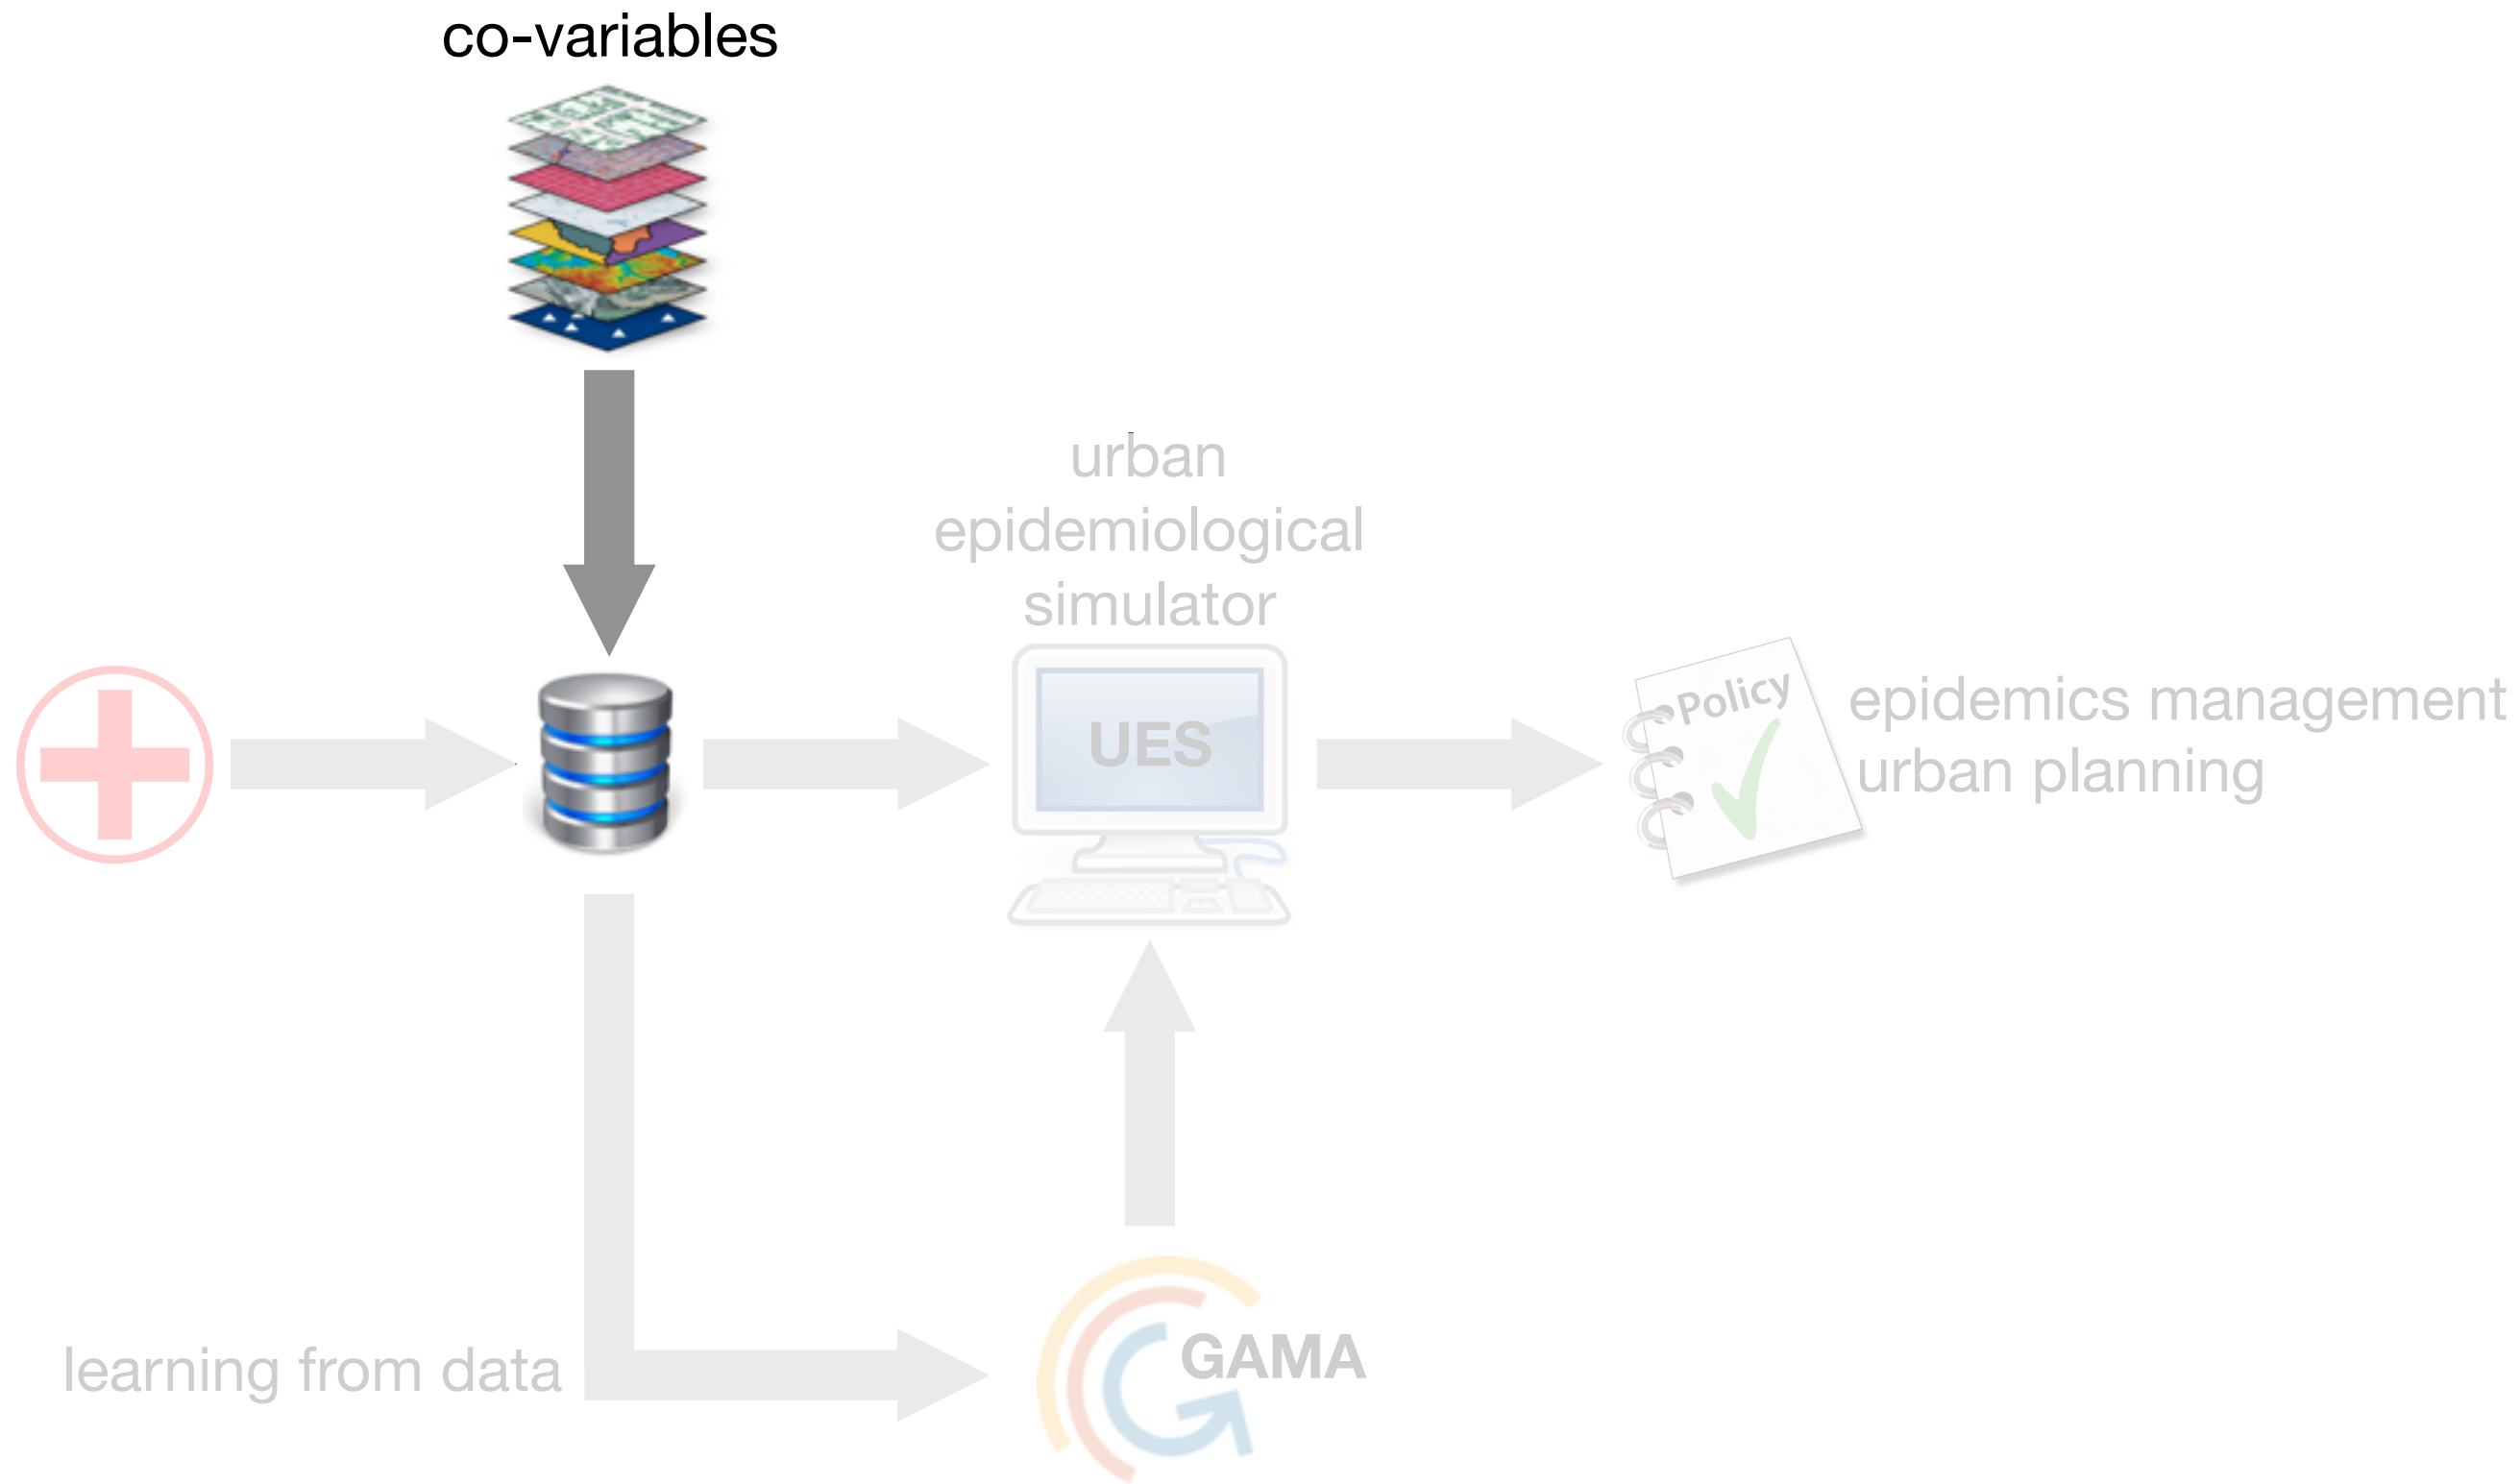

co-variables

Ecomore2-generated:

- entomology: density and resistance of mosquitoes (2019)
- seroprevalence: population immunity (2019)
- cases localities: home GPS coordinates

co-variables

Ecomore2-generated:

- entomology: density and resistance of mosquitoes (2019)
- seroprevalence: population immunity (2019)
- cases localities: home GPS coordinates

available data:

census 2015
shapefiles 2005, 2015

daily and seasonal population movements

mobile phone data

co-variables

Ecomore2-generated:

- entomology: density and resistance of mosquitoes (2019)
- seroprevalence: population immunity (2019)
- ~~● cases localities: home GPS coordinates~~

available data:

census 2015
shapefiles 2005, 2015

daily and seasonal population movements

~~mobile phone data~~

co-variables

Ecomore2-generated:

- entomology: density and resistance of mosquitoes (2019)
- seroprevalence: population immunity (2019)

available data:

census 2015
shapefiles 2005, 2015

daily and seasonal population movements

GLOBAL + OPEN ACCESS

variables

**spatial
resolutions**

**temporal
resolutions**

building density

38 m

1990, 2000, 2014

population density

100 m

2000 → present

land cover

300 m

2005, 2009

surface temperatures

38 m

2018, monthly

water bodies

polygons

2019

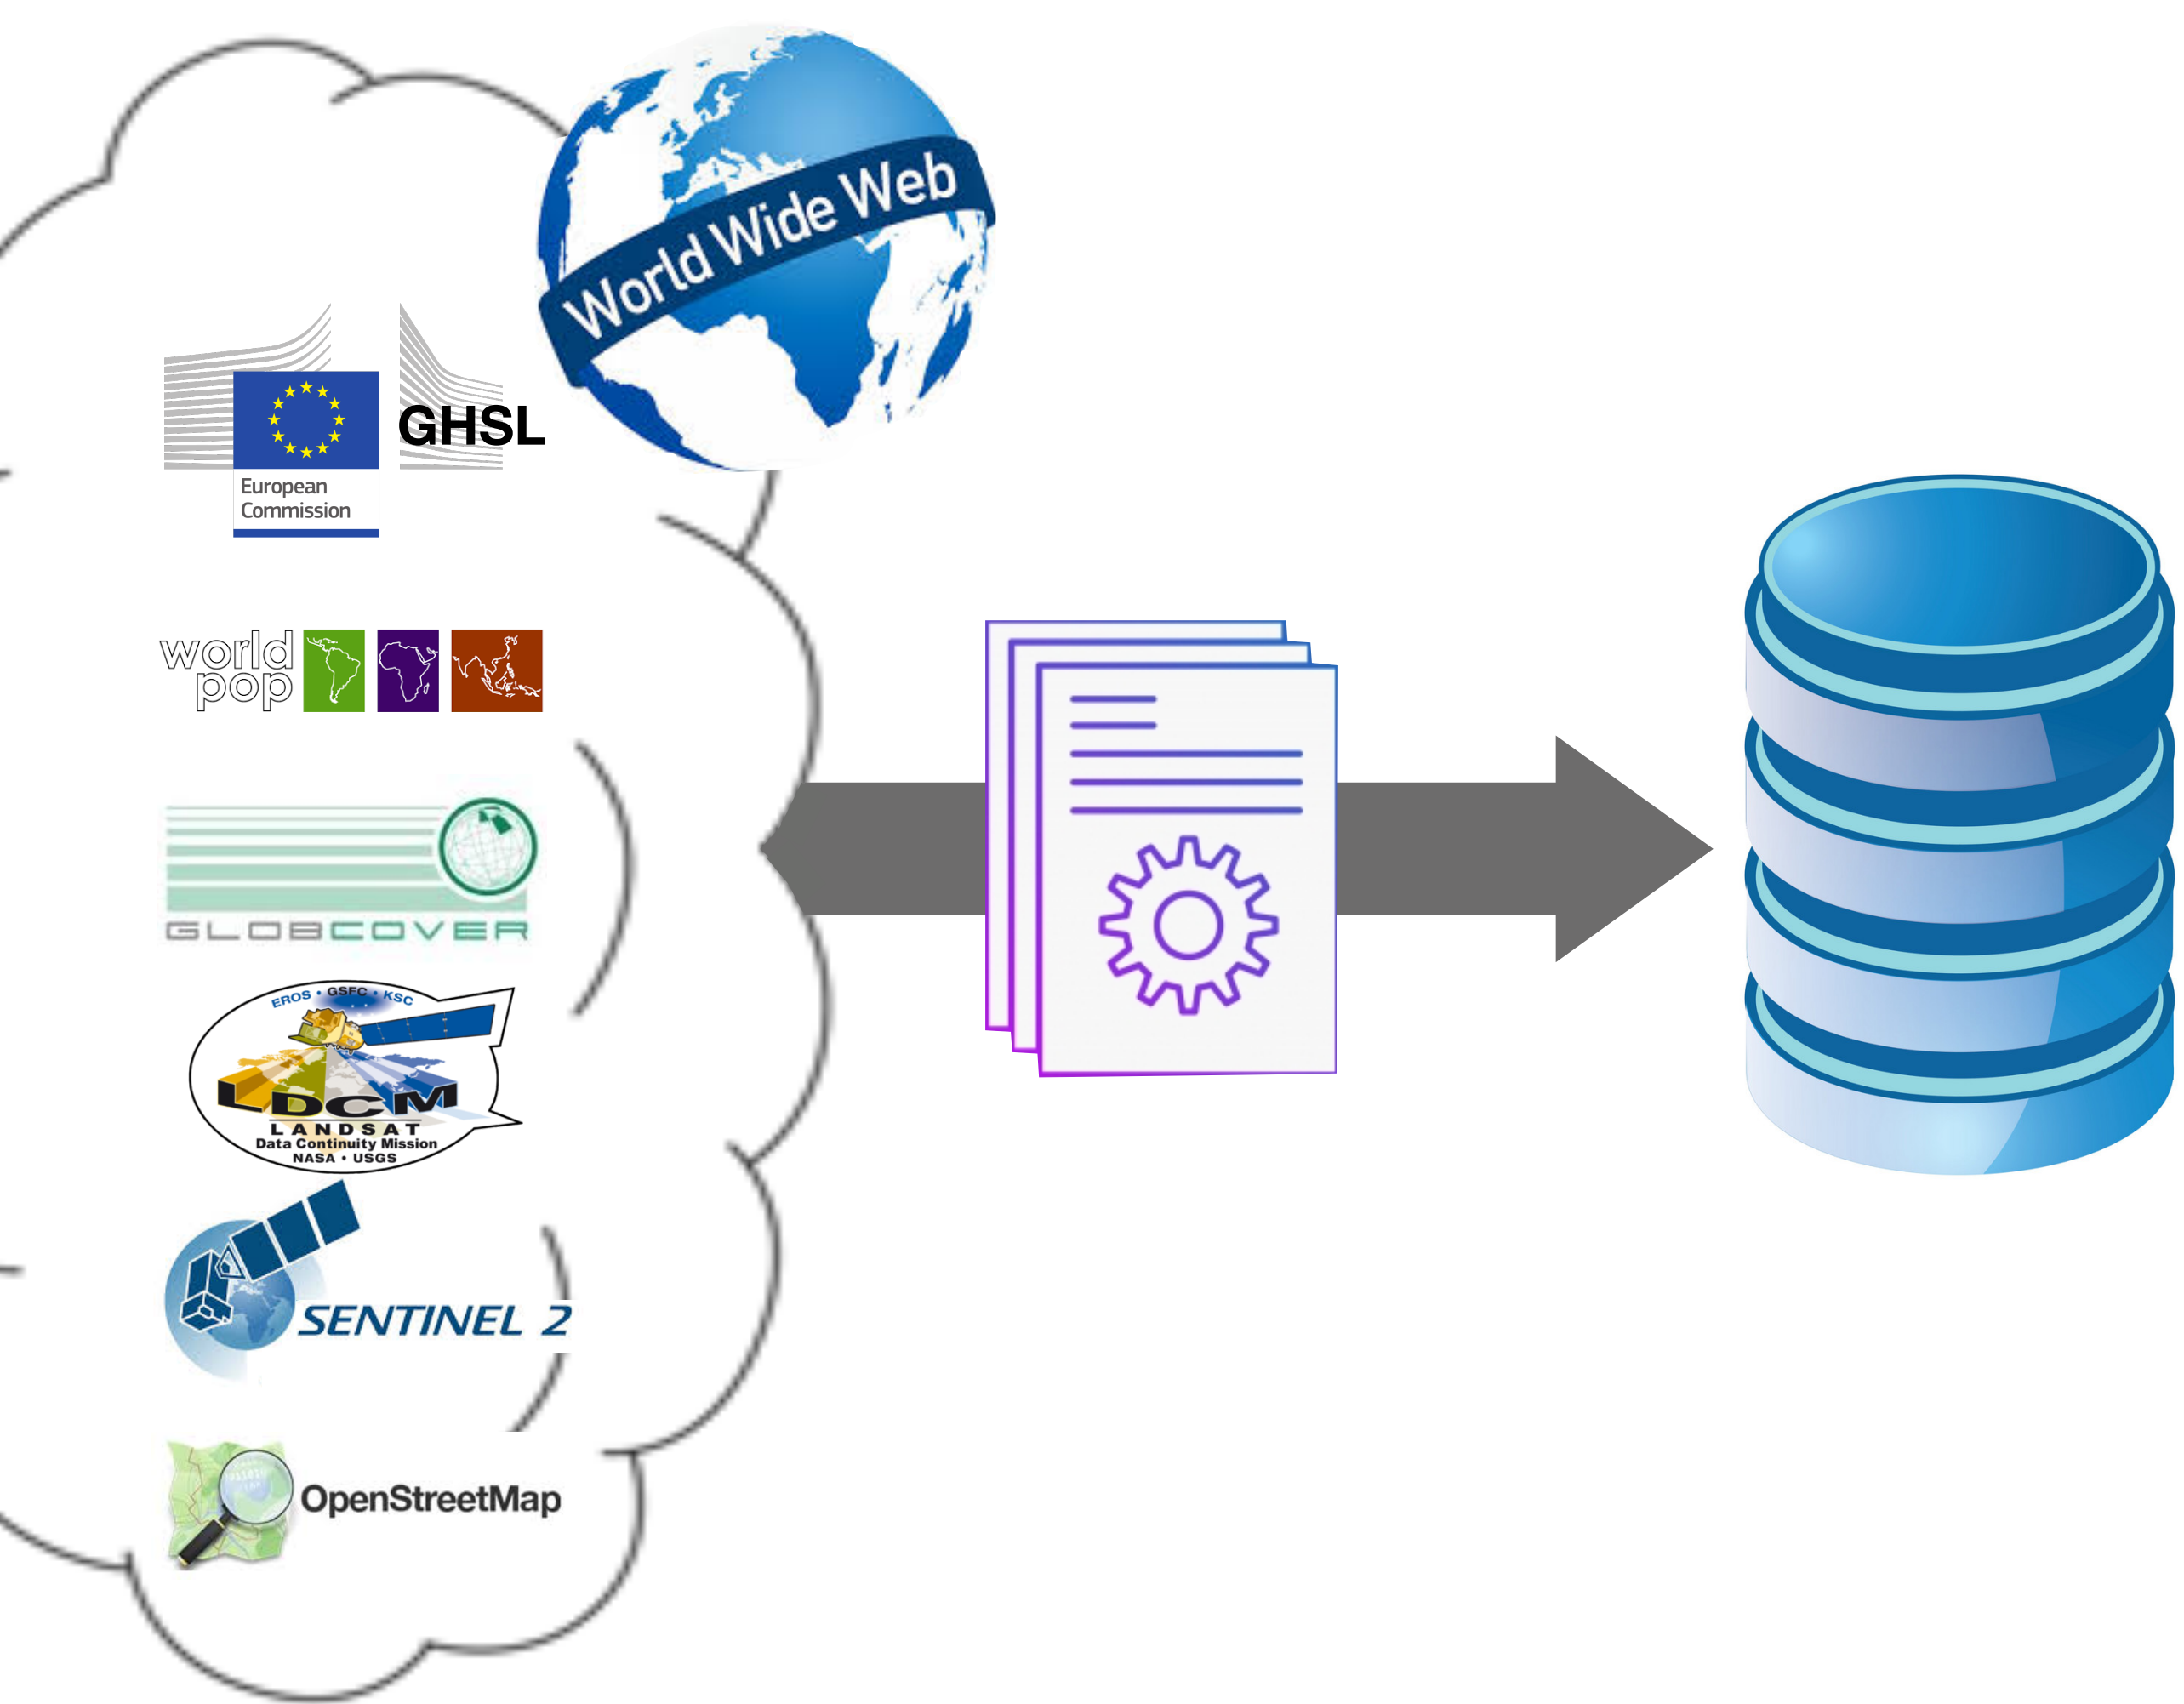

indexes of centrality

GPS coordinates

real time

Completion:

- fixing villages names and definitions
- automating LANDSAT and Sentinel

Completion:

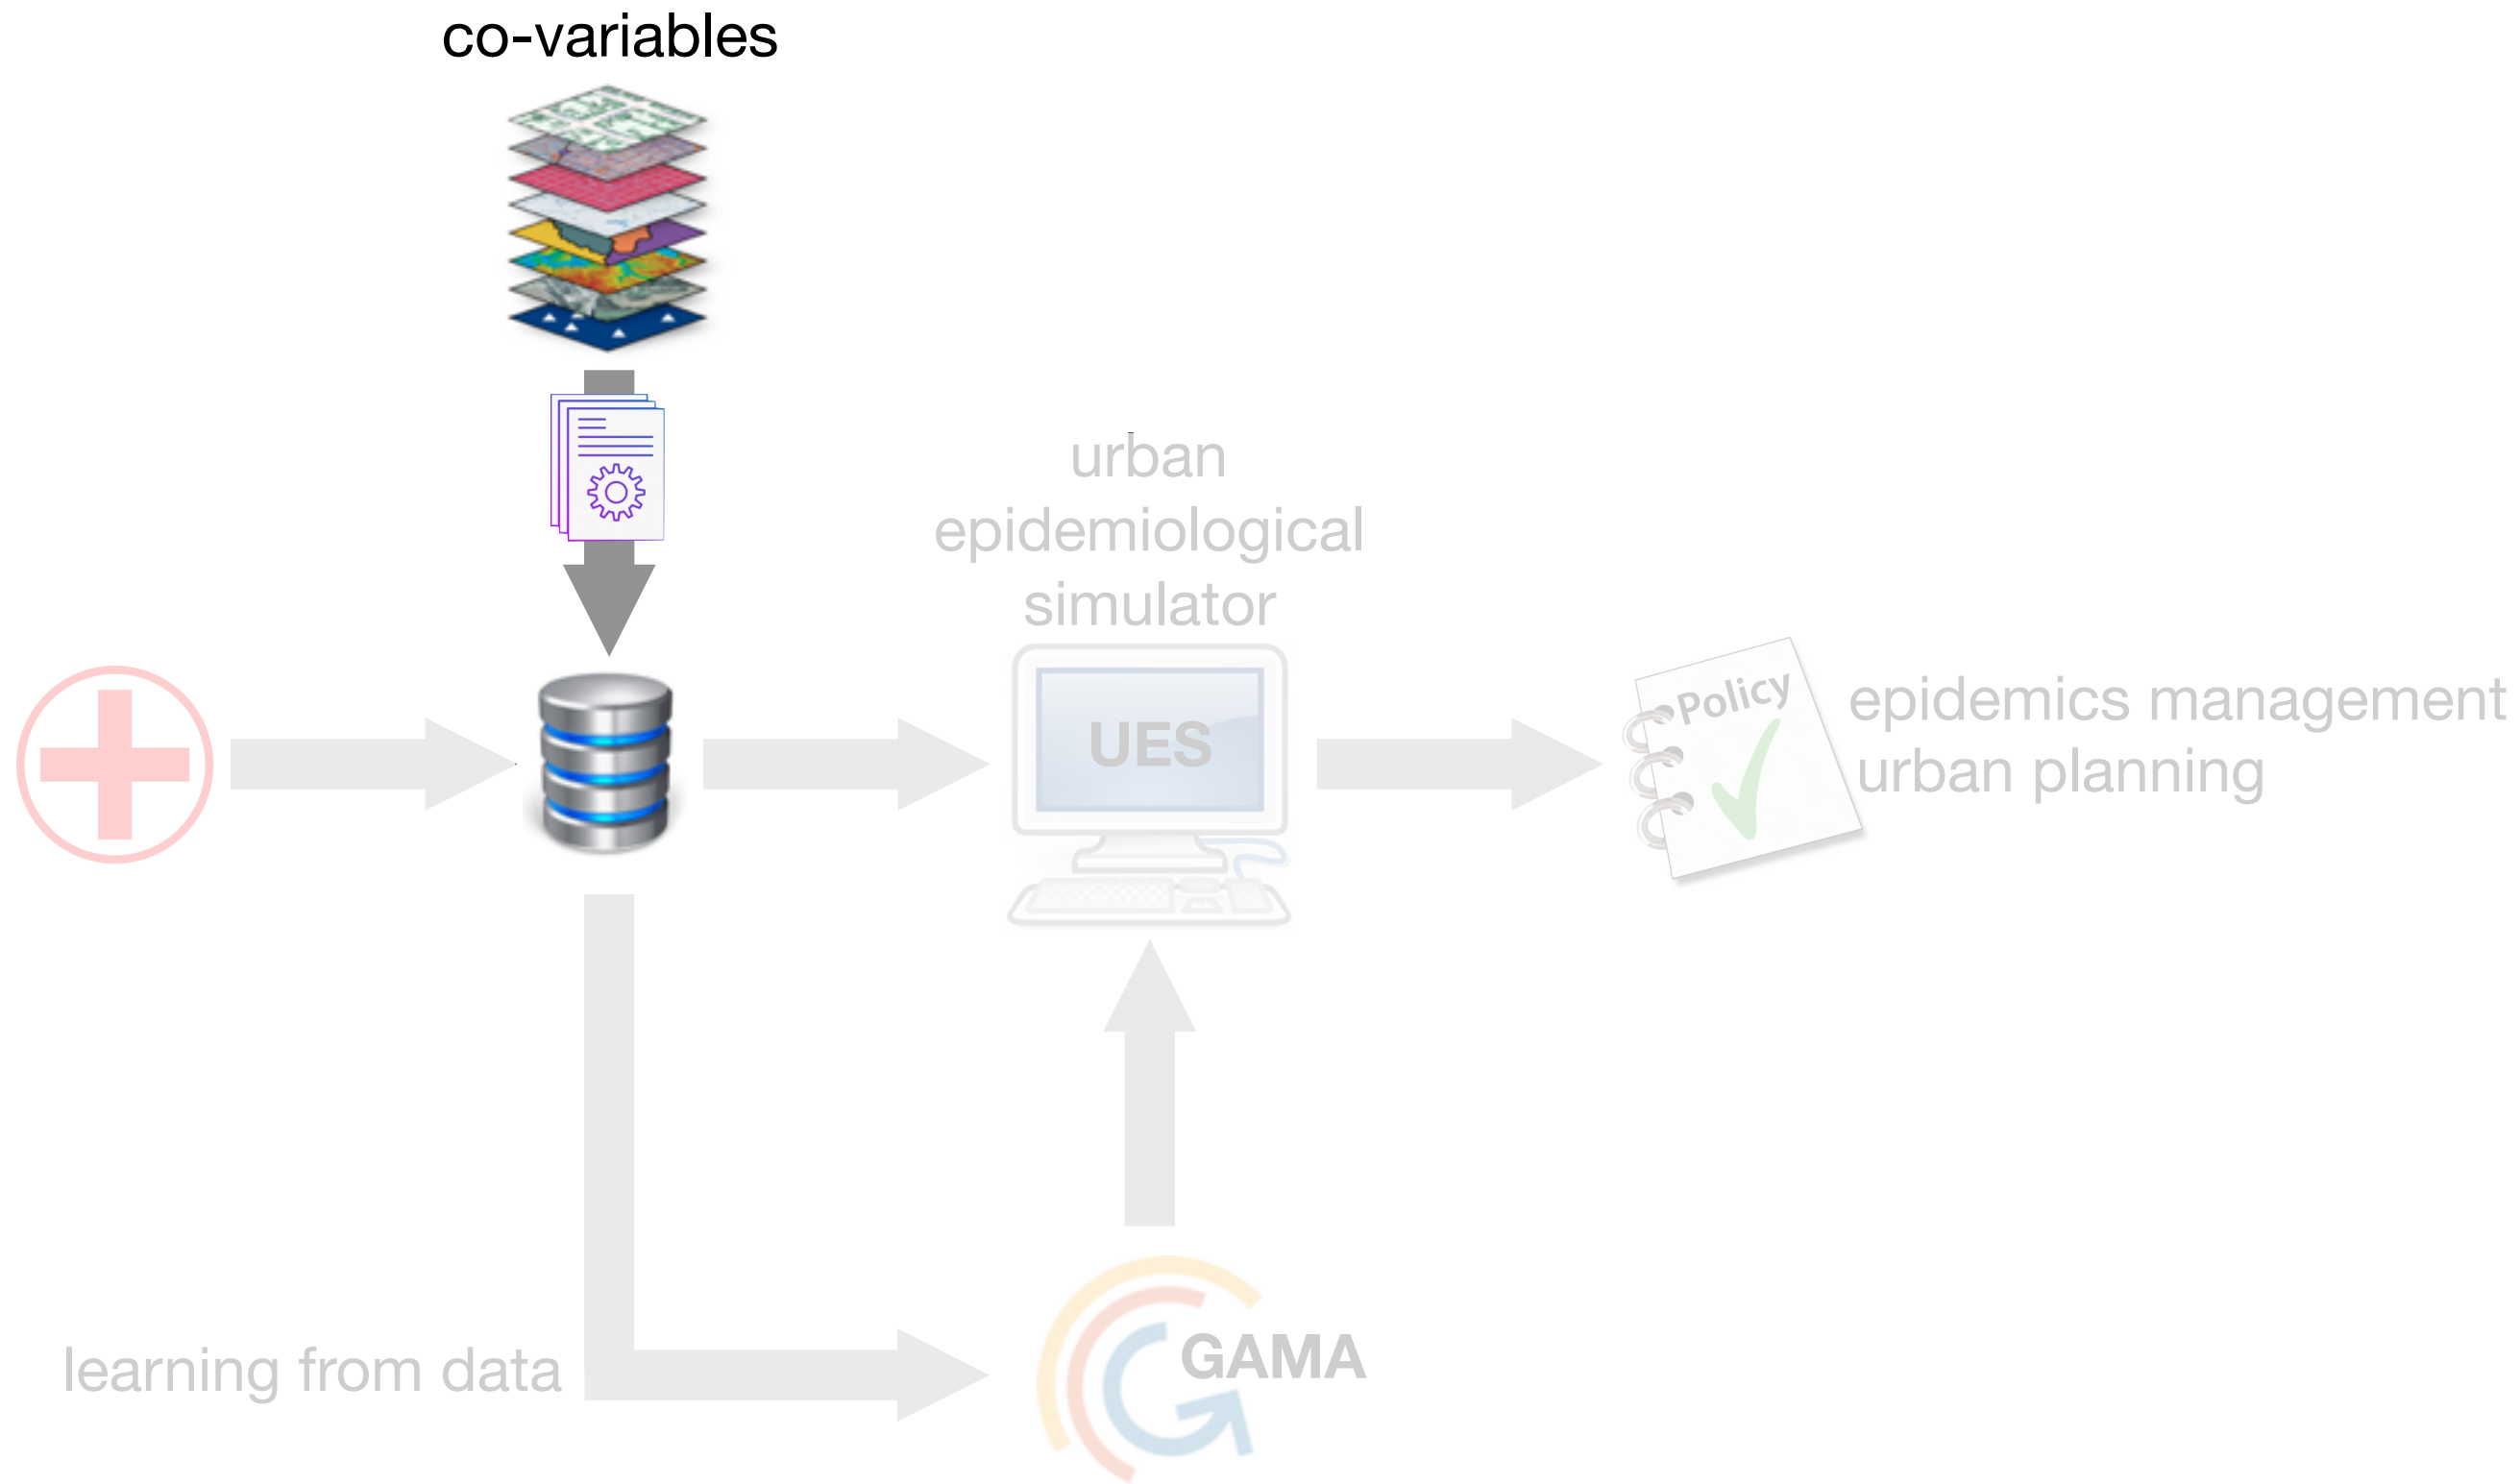

- fixing villages names and definitions
- automating LANDSAT and Sentinel
